KPY 3v3 Tournament Rules

Duration of Games: 15 minutes running clock.

Parent Supervisors: ONE parent supervisor will be required for all age divisions 7th grade and younger. The parent supervisor will assist with substitutions and rules implementation. Absolutely ***NO COACHING*** is allowed.

Number of Games: Divisions will consist of four teams. Each team will play 3 round robin preliminary games. The top two teams within each division will play in a championship game.

Substitutions: Unlimited substitutions are allowed during any dead ball/stoppage in play.

Points System: Win = 3 points, Tie = 1 point, Loss = 0 points

Tie Breakers: 1. Head-to-head, 2. Point differential, 3. Most total points scored, 4. Fewest total points allowed.

Scoring: Baskets made outside the 3-point arc are worth 2 points. Baskets made inside the 3-point arc are worth 1 point. The offensive team will keep the ball and start again outside the 3-point arc off a made basket. All defensive turnovers/change of possessions (rebounds, steal, out of bounds, offensive fouls) must be cleared to outside the 3-point arc before playing offense. Offensive rebounds can continue play without clearing the ball to the 3-point arc. Any out of bounds play will start from the top of the 3-point arc.

Games end when one team scores 21 points, or the 15-minute time limit expires. There are NO overtimes in preliminary games. Tied games at the end of 15 minutes will be scored as a tie.

Fouls:

- Shooting foul when shot misses = 1 point for offensive team. Offense keeps the ball
- Shooting foul when shot is made = 2 points for offensive team. Offense keeps the ball
- Non-shooting foul, offense starts with the ball outside the 3 point line

Intentional/Flagrant/Technical Fouls: A player will be disqualified from the game if called for two intentional, flagrant, or technical fouls.

Championship game rules: A coin toss will be held before the game, to be called by the higher placed team. The coin toss winner can choose between taking the ball first to start the game or taking the ball first in a potential overtime. In overtime, the first team to score 2 points will be declared the winner.
